

# HP 2020 is Coming

## Don't let men get left behind!

>>>>>>>>>> <<<<<<<<<<<

### Men's Health Network

Invites you to participate in an effort to develop the next decade's disease prevention and health promotion objectives for men and boys.

Prior to the launch of HP 2010, Men's Health Network (MHN) worked with the HP 2010 team to insure that gender disparities were addressed and to create a focus on critical men's health needs.

Since then, MHN has developed a profile of men's health for each state ([www.stateofmenshealth.com](http://www.stateofmenshealth.com)), networked with state health departments to encourage outreach to men, and has worked to establish Men's Health Commissions in several states.

Join us in support of a men's health focus for HP 2020. We can provide you with the tools to make a difference in this critical initiative.
